MM-66 GALVANIZER REMOVABLE PAINT MARKER

Paint marks that are removable in the steel pickling bath

- Water and Fade resistant
- Pigmented Paint
- Quick Drying
- Water Based
- Xylene Free
- No Bleed Through

Galvanizer Removable Paint Markers are specially formulated water base paints that exhibits excellent color and adhesion to metal surfaces but are completely removed in the pickling bath. Fast

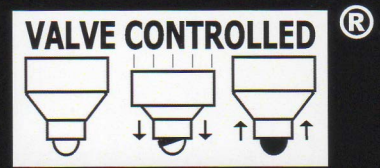

drying and weather resistant marks are applied during the fabricating process direct to metal using our valve-controlled marker to dispense the paint. Once the steel has gone through the pickling process, the paint marks are removed along with the rusty steel leaving a bare surface ready for galvanizing.

FEATURES:

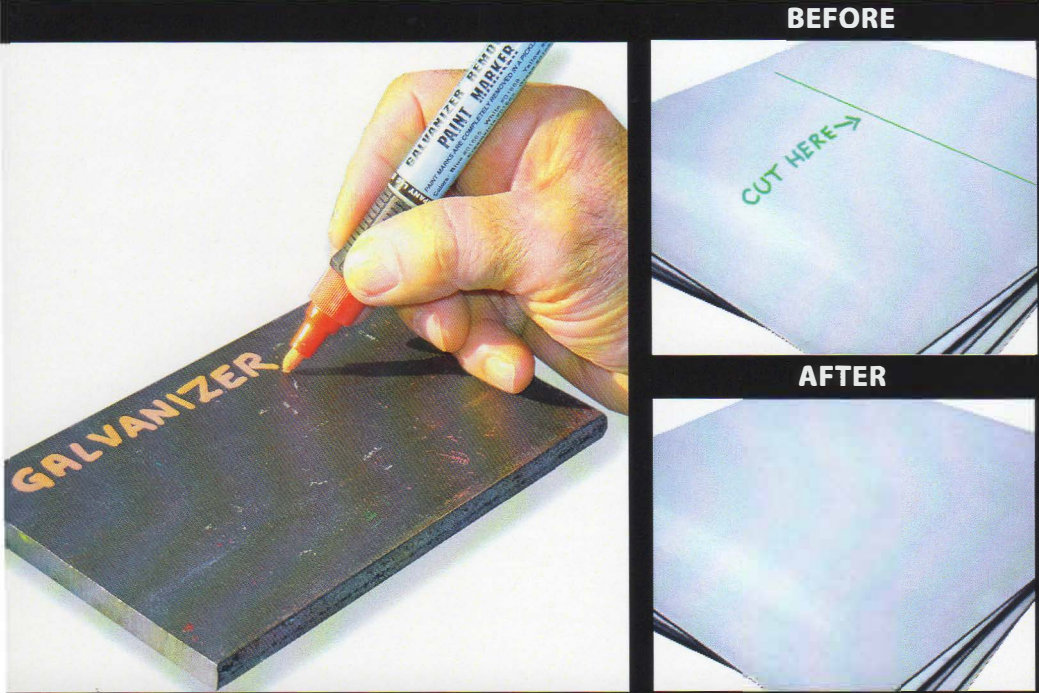

Paint Marker writes on dry, rough, rusty, and smooth surfaces

Valve-controlled, ink feed mechanism to supply as much ink as needed

8 to 10 times the writing life of most other markers of comparable size

- Quick Dry
- Works on metal surfaces
- Bright marks
- Replacable felt-tips
- Prior to pickling - the marks are permanent: they will not chip, peel, fade, or rub off

FOR INDUSTRIAL USE ONLY / KEEP FROM FREEZING

** Sold in minimum 12 per box ** Also packed in quantities of 144 per carton
